## KEY DISCRIMINATORS

- DNV-GL & Lloyds approved hose assemblies, Broadest in Australia.
- HoseCo is the only Australian company approved by NATA for hose assembly visual inspections
- Independent Australian family owned and operated business (AIP & ATSI assured). Nation wide physical footprint.
- Significant 3<sup>rd</sup> party accreditations for full suite of products and capabilities
- One stop shop for all things fluid transfer systems, self-sufficient
- Not a bolt on business, HoseCo is a dedicated hose business and not a division of a larger business operating in a number of different fields.
- 5 x NATA accredited dedicated hose assembly factories around Australia
- No third parties – HoseCo manufactures all hose assemblies itself. Not relying on third parties enables us to control quality, lead time and cost.
- Vast experience in the generation of contract of work scope specific plans covering all aspects of HSE, quality management, ER/IR, implementation & management, communications and HAZIDs
- Highly technically skilled management and staff
